

March's News

Mrs. Scalzo's Grade 2

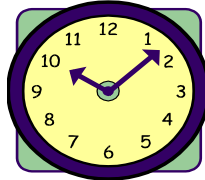

I just wanted to take a minute to say "Thank You" to those parents who have made my transition into your child's class an easy one. I have had the opportunity to meet with several of you and discuss any questions/concerns that you may have had regarding myself or your child's progress. I continue to urge all of you to call or make an appointment to come in and see me if there are ever any questions/concerns you would like to discuss further.

Writers Corner

This month we will be focussing on persuasive writing. I encourage students to try and write at home and to always be practising those very important skills, even if it's just something silly they choose to write. Please encourage your child to write a persuasive piece trying to convince you of something (ie: go to bed later, eat chips for breakfast, etc.) This will continue to foster their creativity which is always important! Making it a funny piece will allow it to

Math Update

In math this month we will be exploring time and money. The students will be required to estimate, count and represent, using the cent symbol, the value of a collection of coins up to 1 dollar. They will also be required to tell and write time to the quarter hour using a demonstration analogue and digital clocks, as well as determining the relationship between days of the week and months of the year.
